| C3022  | Mountain Peak or Summit — Prominent elevation rising above the surrounding level of the Earth's surface   |           |               |           |      |
| C3023  | Island — Area of dry or relatively dry land surrounded by water or low wetland (archipelago, atoll, cay, hammock, hummock, isla, isle, key, moku, rock)   |           |               |           |      |
| C3024  | Levee — Natural or manmade embankment flanking a stream (bank, berm)  |           |               |           |      |
| C3026  | Quarry (not water-filled), Open Pit Mine or Mine — Place or area from which commercial minerals are or were removed from the Earth; not including oilfield  |           |               |           |      |
| C3027  | Dam — Water barrier or embankment built across the course of a stream or into a body of water to control and (or) impound the flow of water (breakwater, dike, jetty)   |           |               |           |      |
| C3061  | Cul de sac — A street that is closed at one end with a circular turnaround area and only one outlet   |           |               |           |      |
| C3062  | Traffic Circle — A circular intersection allowing for continuous movement of traffic at the meeting of roadways   |           |               |           |      |
| C3066  | Gate — A movable barrier across a road  |           |               |           |      |
| C3067  | Toll booth — A structure or barrier where a fee is collected for using a road   |           |               |           |      |
| C3070  | Tower/beacon — A manmade structure, higher than its diameter, generally used for observation, storage, or electronic transmission   |           |               |           |      |
| C3071  | Lookout Tower — A manmade structure, higher than its diameter used for observation  |           |               |           |      |
| C3072  | Transmission Tower including cell, radio and TV -- A manmade structure, higher than its diameter used for electronic transmission   |           |               |           |      |
| C3073  | Water Tower — A manmade structure, higher than its diameter used for water storage  |           |               |           |      |
| C3074  | Lighthouse Beacon — A manmade structure, higher than its diameter used for transmission of light generally to aid in navigation   |           |               |           |      |
| C3075  | Tank/Tank Farm — A manmade structure(s), higher than its diameter used for liquid (other than water) or gas storage   |           |               |           |      |
| C3076  | Windmill Farm — A manmade structure(s) used to generate power from the wind   |           |               |           |      |
| C3077  | Solar Farm — A manmade structure(s) used to generate power from the sun   |           |               |           |      |
| C3078  | Monument or Memorial — A manmade structure to educate, commemorate, or memorialize an event, person, or feature   |           |               |           |      |
| C3079  | Boundary Monument Point — Material object placed on or near a boundary line to preserve and identify the location of the boundary line on the ground  |           |               |           |      |
| C3080  | Survey Control Point — Point on the ground whose position (horizontal or vertical) is known and can be used as a base for additional survey work  |           |               |           |      |
| C3081  | Locality Point — This feature represents points that identify locations and names of unbounded localities e.g., crossroads, community names, names from the Geographic Names Information System (GNIS).                           |           |               |           |      |
